The working environment in Japan is changing dramatically now. Japan has problems with the declining birth rate and aging population. Among them , the biggest problem is decrease in the working population.

We established this company to solve these problems. We paid attention to oversea talent. There are many people who want to find employment and excellent people abroad in Japan. Our company provides opportunities for oversea workers in Japan.

We have tie-ups with Asian universities, support for Japanese employment at universities, human resource development for people who wish to work in Japan abroad, Japanese language education, and general employment support in Japan.

Our company creates the enjoyment of working in Japan.
